

EXTERNAL RELATIONS AND CORPORATE COMMUNICATION

## Dassault Aviation at Aero India

**February 16, 2015 (Saint-Cloud, France):** Dassault Aviation will present its Rafale fighter and its Falcon fleet at Aero India, India's largest air show (18-22 February 2015, Bangalore, India).

Our static display will feature :

- one single-seat Rafale C and two two-seat Rafale B;
- a Falcon 7X trijet and a Falcon 2000LXS twinjet.

Dassault Aviation understands both defense and economic needs because it is a dual group, producing military aircraft (Rafale, drones) and business aircraft (the Falcons) in the same design office and the same production plants. The civil activities benefit from the high technology derived from the defense activities and offer an international capacity for industrial development in return.

The contract with Egypt for 24 Rafale (February 16, 2015) and the first flight of the Falcon 8X (February 6, 2015) consolidate this business model, which is without equal in the aerospace industry.

### About Dassault Aviation

With more than 8,000 military and civil aircraft delivered to 90 countries over the past 60 years, and having logged nearly 28 million flight hours to date, Dassault Aviation can offer recognized know-how and experience in the design, development, sale and support of all types of aircraft, from the Rafale fighter to the Falcon range of high-end business jets, as well as military unmanned air systems. In 2014, Dassault Aviation reported revenues of €3.68 billion, with around 11,600 employees.
